## FULL - LED REAR LIGHT FOR COMMERCIAL VEHICLES

ULO - YOUR PARTNER  
FOR LIGHTS AND  
MIRRORS IN ORIGINAL  
QUALITY

### PRODUCT DATA

#### High-quality LEDs

The LEDs used for this product are excellent in terms of durability and robustness. They have a very high light output with regard to the signal strength. Thus the sealed rear light is maintenance-free.

#### Protection class

The rear light is dust and water proof – also when using high-pressure cleaning devices. This has been approved with standard IP64 and IP69.

#### Overvoltage protection

Voltage peaks according to ISO 7637-2 generate no failure of the product.

#### Both-sided installation

The rear lights can be installed on both sides of the vehicle. This reduces the storing costs.

#### Protection towards damages due to vibrations

Internal, standardised tests in our laboratories guarantee a high protection towards vibration damages.

#### Inverse-polarity protection

A special protection prevents damages of the rear light in case of incorrect connection of the pins.

#### Shock resistance

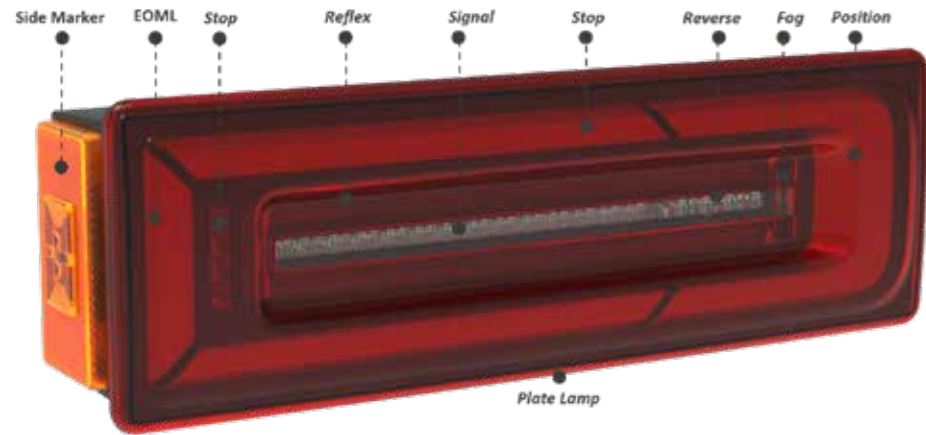

By using high-quality materials the lens is extraordinarily protected towards damages during operation.

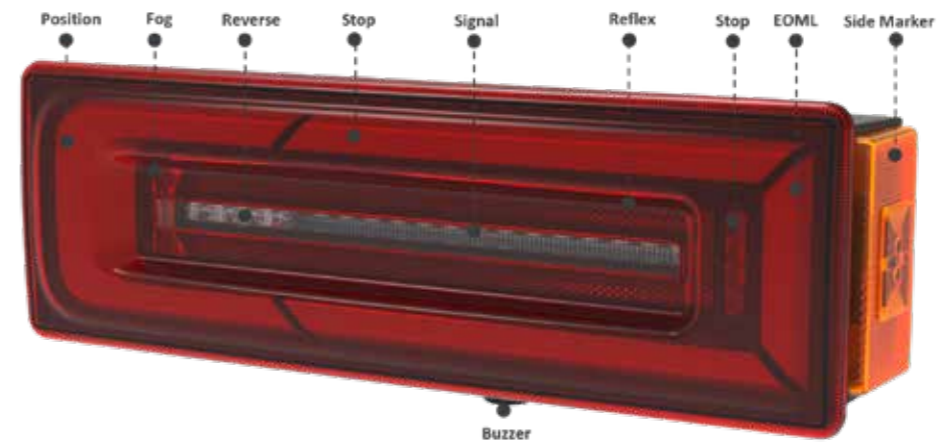

100% ORIGINAL QUALITY ACCORDING TO THE HIGHEST STANDARDS OF THE AUTOMOTIVE INDUSTRY

### HIGHLIGHTS

- FULL-LED COMMERCIAL REAR LIGHT
- COMPLETELY SEALED AND MAINTENANCE-FREE
- ALL FUNCTIONS IN LED
- DYNAMIC INDICATOR
- BOTH-SIDED INSTALLATION
- LESS POWER CONSUMPTION DUE TO LED-TECHNOLOGY

### VERSIONS

147573369 24 Volts

### TECHNICAL DATA

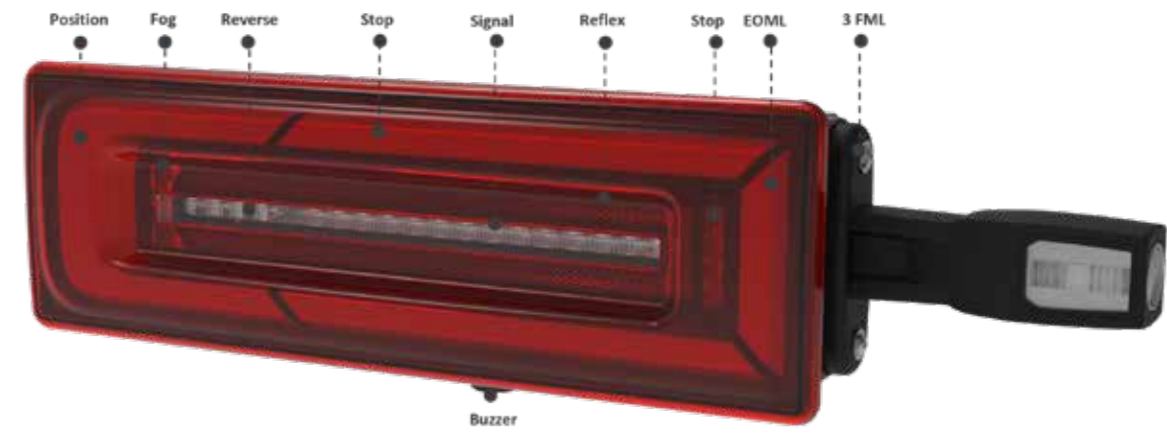

Product No	147573368
Service No	TC46 13405 AA
Voltage	24 V
Functions	Fog, Reverse, Position, Stop, Signal, Reflex, EOML, Side Marker, Plate Lamp
Bulb	LED
Vehicle Socket	TE 967650 - 1
Package Piece	5

### TECHNICAL DATA

Product No	147573369
Service No	TC46 13404 AA
Voltage	24 V
Functions	Fog, Reverse, Position, Stop, Signal, Reflex, EOML, Side Marker, Buzzer
Bulb	LED
Vehicle Socket	TE 967650 - 1
Package Piece	5
